**When asked to defend a massive spending agenda, President Biden said:**

***“What would they have me cut? What would they have me leave out?”***

**We are glad you asked, Mr. President.**

Over the past few months, [we have been chronicling instances](#) where the \$2 trillion Biden bailout bill has led, predictably, to waste and abuse of taxpayer dollars.

There was [\\$4 million for a visitor center](#) and bike share in Rhode Island; [\\$15 million to prepare a sports complex](#) in New Jersey for the 2026 World Cup; and [\\$1,400 stimulus checks going to Japanese citizens living in Japan](#), just to name a few.

One would think this would give President Biden and Washington Democrats pause about their next \$3.5+ trillion reckless tax and spending spree, apparently it has not. Just look at what they are talking about:

- [Amnesty for illegal immigrants](#) that will flood labor markets to the benefit of wealthy corporations.
- [Carbon tariffs](#) that will raise the cost of everyday goods for American families.
- [Tax breaks for wealthy Americans](#) coupled with tax hikes on [job creators and working Americans](#).

- [A new electricity mandate](#) to banish low-cost, traditional energy by 2030.

Unfortunately, this looks to be the start of another Washington takeover of our lives and livelihoods that President Biden just never seems willing to cut...or leave out.

Stay tuned for more.
