

HOUSE BUDGET COMMITTEE

OVERSIGHT TASK FORCE

The House Budget Committee Oversight Task Force (OTF), chaired by Representative Jack Bergman (R-MI), will aim to ensure that taxpayer money is being spent on integral issues that help the nation prosper and move toward a path of stronger fiscal standing.

Why Now?

- Oversight has long been a necessary tool to combat government overreach and provide the American public with a transparent perspective of how their hard-earned taxpayer dollars are being spent.
- Given the number of abuses and follies consistently brought forth by the Biden Administration, this mission is especially important to remain vigilant on.
- House Budget Committee Republicans will leave no stone unturned and will continue calling out any budget malfeasance wherever it may lead.

Guiding Principles:

The Task Force will champion three major themes with an emphasis toward the Federal budget and broader fiscal impact:

1. Accountability
2. Transparency
3. Program Integrity
